

## **Notes Based on the Energy Interactive**

### Tropical Island Day and Night

What are some main things you already knew, learned here or are not sure about with respect to these flows of energy?

### How Does Thermal (Heat) Energy Move?

What are some main things you already knew, learned here or are not sure about with respect to conduction, convection and radiation?

### Global View

What are some main things you already knew, learned here or are not sure about with respect to these global flows of energy?

### What Causes Global Climate Change?

What are some main things you already knew, learned here or are not sure about with respect to global warming and global climate change?
